

Striking color combinations.  
Cutting-edge design.

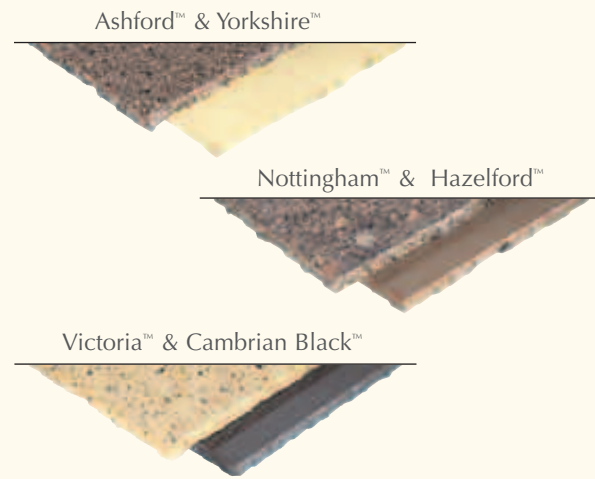

## ENDLESS POSSIBILITIES.

Welcome to your kitchen.

### CAMBRIA COMPLEMENTARY COLORS

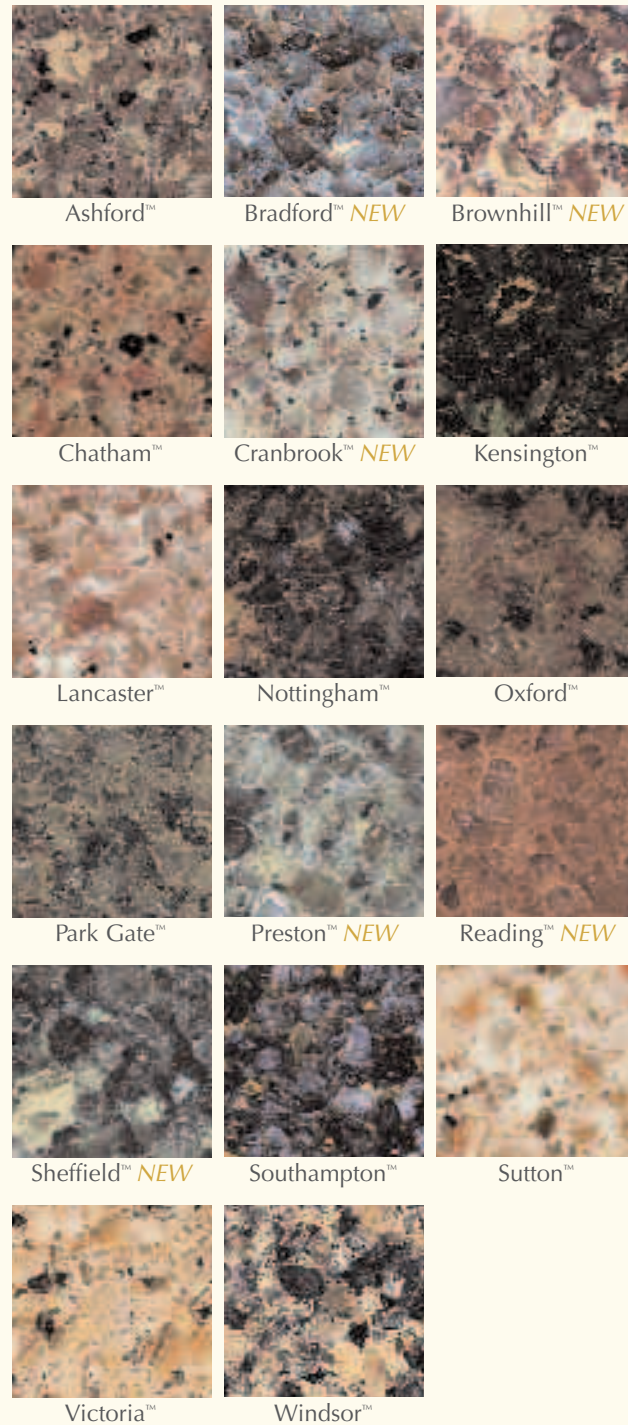

Step to the forefront of custom design by creating your own compelling kitchen and bath environments. Start with two complementary colors and mix and match combinations for a design that's uniquely your own.

With its warm, captivating tones and variations found only in nature, no other quartz surface offers the natural elegance of Cambria's **Quarry Collection**. Inspired by the muted hues found in scenic landscapes, the monochromatic palette of Cambria's **Desert Collection** complements virtually any décor. Start with these two collections in your kitchen or bath design to discover a distinct advantage you simply won't find with any other countertop product.

## The Quarry Collection™

Authentic, natural beauty of quarry-cut stone.

## The Desert Collection™

Monochromatic hues found in nature.

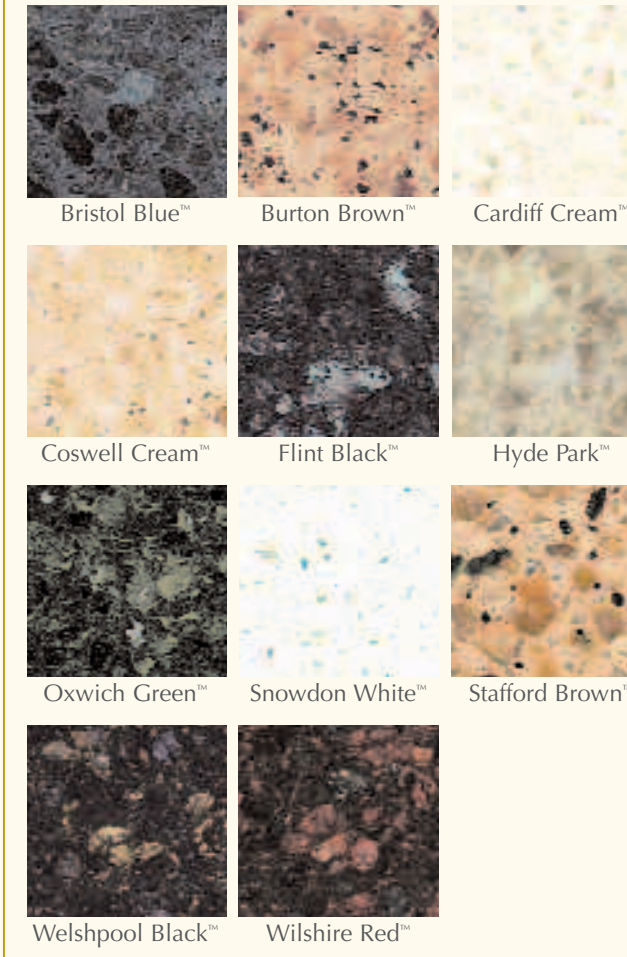

Cambria is available in 1cm., 2cm. and 3cm. thicknesses.

To locate the dealer nearest you, visit us at  
[www.CambriaUSA.com](http://www.CambriaUSA.com).

## The Classic Collection™

Timeless elegance and enduring style.

Variation in the natural stone (quartz) color, pattern, size, shape and shade are inherent and unique characteristics to be expected with this product. This does not affect the product performance in any manner. Color blotches are intended and designed into many colors to enhance the natural beauty. Photographs are from small select cuts from a slab; they do not exhibit all the characteristics of a color and combined with printing limitations are not fully representative of what will be installed.

1-866-CAMBRIA (1-866-226-2742)  
Le Sueur, Minnesota

Cambria is pure natural quartz. Variation in the natural stone (quartz) color, pattern, size, shape and shade are inherent and unique characteristics to be expected with this product. This does not affect the product performance in any manner. Color blotches are intended and designed into many colors to enhance the natural beauty. Samples are small select cuts from a slab; they do not exhibit all the characteristics of a color and therefore are not fully representative of what will be installed. Product will not be replaced due to these variations. Cambria is durable and more resistant to surface damage than other stone. However, all stone can be damaged by force and no stone is chip-proof. Objects hitting edges particularly at sinks or dishwashers may cause chips. Though a minor knife slip will dull the knife and not harm Cambria, no stone surface is scratch-proof. Surface markings are more visible on monotone colors than multi-colored surfaces. Cambria is not a seamless product, seams are visible. Where there are seams the product pattern and shade can change. Natural stone surfaces can be damaged by sudden and/or rapid change of temperature especially near the edges, as well as direct and/or sustained heating of the top. Cambria may not withstand the direct transfer of heat from pots and pans and other cooking units such as electric frying pans and griddles, and some crock-pots or roaster ovens and heat lamps. Therefore, the use of a hot pad or trivet is always recommended to prevent heating the product. Cambria is not a structural support material. 2-cm and 3-cm Cambria thicknesses are for countertops and must be supported. 1-cm thicknesses are for surface finishes such as walls, tub and shower surrounds and fireplaces; horizontal applications such as a tub deck must be completely supported as well. Semi-polished or Honed finishes (1-cm) will not shine. Version 071-0716

WELCOME HOME

*You*  
know the term

## “PERFECT HOST”?

Get Used To It.

When you choose Cambria natural quartz surfaces for your home, the phrase “drop in anytime” will suddenly become part of your everyday vocabulary. Your kitchen evolves into more than a kitchen. It’s transformed into an open invitation to family and friends. A place of pride. Somewhere to gather. The true focal point of your home.

With its smooth surface and brilliant luster, Cambria adds beauty to your kitchen, elegance to your bath and sophistication to your floors. Yet beauty isn’t the entire story. Underneath Cambria’s refined appearance lies a diamond-like hardness that provides extraordinary strength and enduring resilience.

From kitchen countertops and bathroom vanities to bathtub, shower and fireplace surrounds, Cambria offers an inviting set of surfacing solutions that are as pleasing to the touch as they are to the eye. With an extensive palette of arresting colors showcasing the depth and character of natural quartz, Cambria is committed to developing products that appeal to your unique design preferences.

*If you’re considering natural stone*  
for your countertops,

## CONSIDER THE ADVANTAGES

of Cambria.

**STRONG AND EASY TO MAINTAIN** • Unlike granite, Cambria is virtually worry-free and exceptionally easy to maintain. Cambria is twice as strong as granite. Granite is porous and subject to staining if not maintained with sealers, conditioners, cleaners and wax.

**STAIN RESISTANT** • Cambria is nonporous, making it resistant to stains from fruit juices, food coloring, coffee, tea, wine, nail polish and felt-tip markers. No sealing, polishing or reconditioning is required. Just wash Cambria with warm water. It’s that simple.

**SAFE FOR FOOD PREPARATION** • When food and moisture penetrate a porous surface, harmful bacteria begins to grow. The surface of granite can absorb harmful bacteria and is not certified by NSF International. Cambria is nonporous and has been certified by NSF International for use as a food preparation surface.

**UNMATCHED QUALITY** • Warranties for granite countertops are generally not available. Cambria understands how important your home is to your family, and that’s why we stand behind our products with a 10-year limited warranty for manufacturing defects.

*On the surface,*  
it has

## EVERYTHING YOU WANT

in a countertop.

Look below the surface and you’ll discover a company committed to partnership and dedicated to health and environmental responsibility.

Cambria is the exclusive producer of natural quartz surfaces in the United States. Every Cambria slab is manufactured in our Minnesota facility before being shipped to our fabrication and installation partners.

**WORKING WITH PARTNERS WHO SHARE OUR VISION** • Cambria is sold only to certified fabricators and installers uniquely qualified to combine their expertise with Cambria’s rigorous training. Our partners are committed to building the Cambria brand, just as we are committed to helping them grow their businesses.

Cambria is not carried in any of the “big box” chains. Instead, it’s available exclusively through independent kitchen and bath dealers and custom-home builders.

**IN BUSINESS WITH THE ENVIRONMENT**  
Cambria’s sense of partnership extends to our stewardship of natural resources. Cambria is certified by GREENGUARD as a low-emitting product for indoor air quality, and suitable for school environments. Cambria also prioritizes sustainable practices whenever possible. 98% of the water used for slab polishing is recycled for reuse.
